SUMMARY

Machine Learning Engineer in predictive analytics with hands on experience delivering data driven solutions. Built a travel insurance purchase prediction model at Ei Systems using Python, Scikit learn, and Pandas, systematically tuning a Random Forest classifier to boost classification performance. Created interactive data analysis dashboards with Streamlit and crafted user focused interfaces using HTML/CSS, turning complex insights into actionable visual tools for stakeholders.

SKILLS

Programming Languages: Python, Java, SQL

Machine Learning & AI: Scikit learn, NLP, Random Forest

Data Analysis & Visualization: Pandas, NumPy, Matplotlib, Seaborn, Streamlit, APIs

Web Technologies: HTML, CSS

Development Tools & Concepts: GitHub, VS Code, Object Oriented Programming (OOPS)

EXPERIENCE

Machine Learning Intern

Ei Systems Company

- Developed a predictive machine learning model to forecast travel insurance purchases with Python, using Pandas and NumPy for data preprocessing and feature engineering.
- Trained a Random Forest classifier with Scikit learn, improving classification performance through systematic model tuning.
- Performed exploratory data analysis and visualized customer behavior and key influencing factors with Matplotlib, uncovering meaningful patterns and trends.
- Assessed model performance to raise prediction accuracy and delivered data driven insights that supported business decision making.

PROJECTS

Wealth Vista – Smart Expense Tracker

- Designed and implemented responsive user interfaces using HTML and CSS.
- Applied UI/UX principles to improve usability and accessibility.
- Used structured data presentation techniques to support financial tracking functionality.
- Developed a user friendly expense tracking interface for managing expenses, categories, and financial goals.

Data Driven Analysis of Screen Time, Mental Health, and Academic Outcomes

- Developed an interactive Python application using Streamlit.
- Implemented data analysis, visualization, and recommendation modules.
- Debugged application workflows and optimized data processing pipelines.
- Generated automated reports through CSV and PDF export functionality.

EDUCATION

Karunya Institute of Technology and Science

Coimbatore

B.Tech - Computer Science and Engineering (Specialization in Artificial Intelligence)

Sep 2022 – Present

- CGPA - 8.34

AP State Intermediate Board

May 2022

Intermediate - MPC

- 96.9%

CERTIFICATIONS

- Java Programming Fundamentals
- Introduction to Soft Skills in TCS
- Interpersonal Skills: Time Management, Collaborative Teamwork, Positive Attitude, Active Listening
